Smart Manufacturing Option
Thinking of a career in advanced manufacturing? Then think of Smart Manufacturing! In this program, you will learn what goes into automating manufacturing lines and using data from network connected equipment to improve manufacturing performance.

Diagnostic Medical Sonography
Check out the new lab, view live scans, or get one yourself! DMS sounds like an ultra-cool career.

Health Information Technology
If you're ever hurt as a pedestrian and collided with a roller skater, there is a code for that: V00.01. Bitten by a cow? W55.21. Find out about the wild world of HIT.

Medical Laboratory Technology
Go behind the curtain and take a peek into the microscope and learn how you can contribute to most medical diagnoses.

Nursing
Do you have the compassion to help the sick and injured? If so, nursing might be your next career! MTC nursing graduates are in high demand.

Occupational Therapy Assistant
Creative, compassionate and hardworking students are needed for this in-demand career. Get an interactive look at jobs focused on enabling individuals to overcome disabilities and injuries to be independent in their daily lives.

Physical Therapist Assistant
Health and wellness is where it's at! Be the person who helps others gain mobility and strength while offering encouragement and physical conditioning.

Radiologic Technology
Come learn why living in the world of x-ray's is such a RAD career!

Social Work and Addictions
Interested in addiction studies, counseling, social work or a helping profession in social services? Join an info session about a rewarding and meaningful profession, helping people and changing lives!

Surgical Technology
Be in the (operating) room where it all happens! Setting up the OR and assisting the surgeon will be part of your day in this much-needed career.

Cybersecurity and Networking
Part investigator, part (ethical) hacker, ALL necessary for our world today! Use your passion for intricate networking and computer systems to highlight security risks. Computer networks are the backbone of modern-day communication. Help everyone get connected and stay connected by learning about the inner workings of various computer systems.

Software Development
Use your know-how to analyze information systems, develop a strong knowledge of Microsoft products and create programs that will be useful for all users.
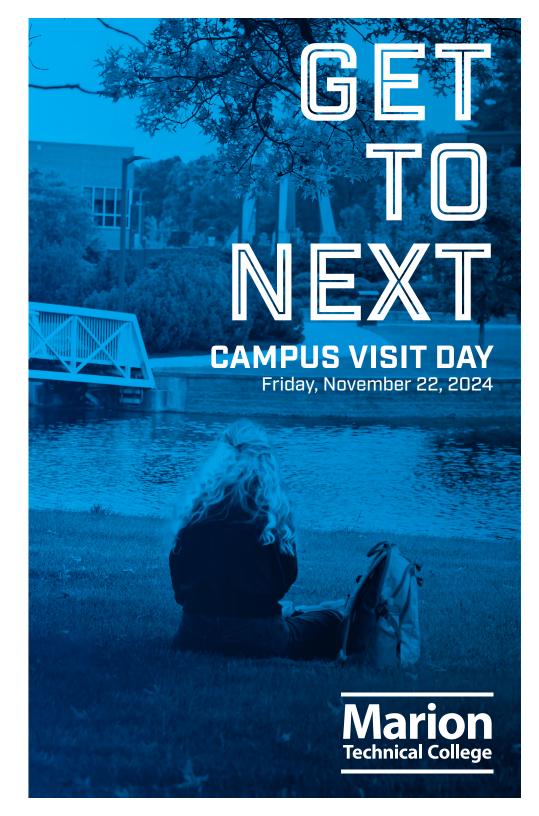

Criminal Justice & Law Enforcement
Learn about criminal investigations and the intricate field of becoming a police officer. Look into the microscope to see the difference between drugs and catnip.

CAMPUS VISIT DAY AGENDA

9:00   Welcome and Outline of Events – Alber Student Center Gymnasium

9:30 – 10:05   Block One

Academic Sessions	Admission Sessions	Campus Life Sessions
• Business • Engineering Technologies • Public Service Technologies	• College Admissions & Financial Aid	• Student Life Panel • Campus Tour • Esports

10:15 – 10:50   Block Two

Academic Sessions	Admission Sessions	Campus Life Sessions
• Associate of Arts/Science • Health Technologies • Information Technologies	• College Credit Plus (CCP)	• Career Planning • Campus Tour • Esports

11:00 – 11:35   Block Three

Academic Sessions	Admission Sessions	Campus Life Sessions
• Business • Engineering Technologies • Public Service Technologies	• College Credit Plus (CCP)	• Student Life Panel • Campus Tour • Lunch Group: White

11:45 – 12:20   Block Four

Academic Sessions	Admission Sessions	Campus Life Sessions
• Associate of Arts/Science • Health Technologies • Information Technologies	• College Admissions & Financial Aid	• Career Planning • Campus Tour • Lunch Group: Blue

12:30   Depart from Gym

EXPLORE A CAREER

SESSION OVERVIEWS
Admissions and Financial Aid

College Admissions and Financial Aid
Learn about the admissions process and how to enter the limited enrollment programs at MTC. Discover ways to cut costs and learn what FAFSA means.

College Credit Plus (CCP)
Qualified students in grades 7–12 can begin a pathway toward their educational goal by earning college credit through the CCP program at Marion Technical College. Save time and money by earning transferable credit toward both their high school and college degree, for free!

SESSION OVERVIEWS
Campus Life

Campus Tour
Get your steps in and check out the Marion campus! Our student ambassadors know their way around and can also offer their own personal experiences at MTC.

Career Planning
Are you still trying to figure out what you want to be when you grow up? Career Coach provides you with the tools to find out which career best suits you as well as annual salaries, local job openings, etc.

Student Life Panel Discussion
If you would like the inside track on what it's like to be an MTC student, learn from the students themselves! Students will give their impression of MTC and which campus services have helped them the most.

SESSION OVERVIEWS
Academic

Associate of Arts/Science (Transfer)
When #GetToNext means transferring to another college or university at a lower cost. This route is ideal for students looking to save money while completing a 4-year degree.

Business
Calling all sharks... In this session, we will look at how a person can identify and take advantage of business opportunities like a boss!

Mechanical Engineering
If a career in manufacturing where you will be using computer aided design (CAD), fabricating parts using CNC machining or 3D printing or solving equipment failures sparks your interest, then this is the field for you!

Electrical Engineering
It's all about power! If troubleshooting circuits, installing electrical systems and/or working with robots is right for you, then explore this program.

Robotics & Automation
If you want to learn more about working with robots - how to program, troubleshoot and integrate them into a production line, then MTC's Robotics and Automation program is the way to go!
